

**LET'S  
BUILD  
IT.**

# OUR PROCESS

**Step 1:**  
Complete Initial Site Visit.

**Step 2:**  
Create the project's estimate

**Step 3:**  
Client approves estimate.

**Step 4:**  
Create a set of construction drawings & scope of work for clients.

**Step 5:**  
Progress to design and selections

**Step 6:**  
We revise the scope of work and implement all hard selections along with SKU numbers and brand names in place of allowances.

**Step 7:**  
Client reviews the file and approves final revision of the estimate

**Step 8:**  
We move to scheduling and production.

**Step 9:**  
Assign project managers to the client and start pre-construction site visits with subcontractors.

**Step 10:**  
Start pre-construction site visits with vendors.

**Step 11:**  
Put together the project's schedule.

**Step 12:**  
Fine tune trade sequencing.
